### ABOUT THE EARLY FROST.

Denielson Has White Frosts with Temperature in the 40's—What the Encyclopaedia Britannica Says.

Encyclopaedia Britannica Says.

For the special benefit of "Reason," the use of which word as a signature to a letter in Thursday's Bulletin indicates a doubt as to the authenticity of the story about frosts as printed in Tuesday's edition of the paper, the following relative to frosts is quoted from so valuable and recent an authority as the yet uncompleted eleventh edition of the Encyclopaedia Britannica, volume II. page 259. "The terms 'hoar frost' and 'white frost' (the latter specifically mentioned in The Bulletin's report) apply to visible frozen vapor formed on exposed surfaces. The number of degrees below the freezing point are termed 'degrees of frost."

"As soon as the mass of air is cooled to its dew-point, water begins to be precipitated in the form of rain, dew, snow or hail. Hoar frost is only formed at the immediate surface of the land if the latter be at a temperature below 32 degrees, and this may occur even when the temperature of the air a few feet above the freezing point."

Now, Danielson does have, has had and will have frosts with the temperature in the 40's, and it is also possible to have early vegetables. late flowers and even to produce lemons

ble to have early vegetables. late flowers and even to produce lemons here, as, it is presumed, possible to do in good old Voluntawn, under fa-vorable conditions. The frost written of in Tuesday's Bulletin was not only noted and recorded in Danielson but noted and recorded in Danielson but in surrounding towns. Its character was at that time made clear. It was described as a white frost and as do-ing no injury. Danielson is no more faigld than other parts of eastern Con-necticut, but it certainly does have frosts in August, be they ever so slight.

#### ROMANCE, TOO, HATH CHARMS. Central Village the Mecca for Scores of the Sentimental and Curious.

Romance surely has its attractions for young and old, rich and poor, if the number of persons that are making visits to Central Village to view the Hotel Central, where "Handsome Jack" Geraghty and Miss Julia Steele French were made man and wife, are a basis for unblased judgment in the matter. As a matter of fact, the many scores of curious folk that have visited the modest little hotel during the past two weeks are wealthy and many of them came from long distances, but at no great sacrifice as they have traveled in luxurious touring cars. Proprietor Edward Riley and his employes have had many a busy hour showing the inquisitive visitors about the place, especially the room in which the elopespecially the room in which the elop-ing and much pursued couple were made man and wife and in answering the many and varied questions that fertile minds are capable of compound-

DIED AT FOSTER CELEBRATION. Overwork in Connection with Old Home Day Caused Death of Dr.

Foster's Old Home day celebration at which nearly 2,000 people were present, was thrown under a cloud on Thursday afternoon when Dr. Henry Arnold, who as chairman of the general committee, had made practically all the arrangements for the affair, was taken suddenly ill, soon after eating dinner, and died within a few minutes. Heart disease and overwork in connection with the celebration caused death. The deceased was the most prominent citizen of the town and was well known all through this section. He was born August 5, 1855, in Foster. He was a graduate of the University of Vermont and of the College of Physicians and Surgeons of New York and had practiced medicine for 33 years. He was born in the same house in which he died and in which his father, who was also a physician lived for over 60 years. His sudden death was a distinct shock to the community. He leaves a willow, two brothers and a sister. He was identified with no societies or fraternal organizations.
